- Output: 20W per meter
- 2700K Warm White
- 240V with LED driver housed within light
- Dimmable as standard
- Requires fitting by qualified contractor
- Supplied partially assembled
- Colour matched ceiling screws supplied
- Ceiling anchors (not supplied) determined by substrate

CARE

The Parlour Light is manufactured entirely from brass. The patinated finish is applied by hand and as such varies throughout the light fitting. The final finish is 'fixed' via a fine coat of silicone lacquer and requires very little maintenance.

We recommend wiping with a soft damp cloth to remove dust. Cleaning substances or abrasive materials must not be used.

SIZES

*Standard sizes
 160, 180, 200

Bespoke lengths as a special order, please get in touch with our design team.

**Drop to suit your ceiling. Please get in touch with our design team.
